#### Interesting Correspondence--- Another Letter from Gen. Taylor.

Some of our whig editors seem determined that Gen. Taylor shall be the nominee, any how. The old general is not to be outdone in courtesy, as his letters to our neighbor of the Journal, and the following to another distinguished editor, amply proved. Flour .- The market to-day was very dull, and the only -As we have copied all his previous ones, we deem it sales heard of were 100 brls. from railroad, delivered and but fair to give his latest, though couched in the Very little arrived. poetic vein, and probably, like his letter to Mrs. Gen. it shadows forth his views "as a whig."

"DEAR SIR :- So many stories go Abroad, designed to cause distraction,

I write you this, that all may know My position to a fraction. (Between ourselves, I think this course The only way that I can fix it,

To paralyze and break the force Of Mr. Clay's late ipse dixit.) Then I'm a whig, as many know;-

But will be more explicit, And say "I'm not an ultra," though, Lest some mistake and miss it

As to the Tariff and the Bank, I'm upright as a steeple! What do I know of these things ?-I'll leave it to the people !

I'm for the Veto-but not strong Except in case of violation Of the Constitution, or of wrong Or hasty legislation.

If of my views aught else is heard, "Give it my pointed contradiction." And "rest most certainly assured, It is, beyond a doubt," sheer fiction.

Should Hoosiers say I slandered them, Because that they were cowards,

Tell 'em I did it for to kill Their Lane, a second Howard. And now I am for President, I'd have you bear me witness;-To what a very great extent,

I've told of my unfitness. So if elected to the trust, And whigs do catch a Tartar, They'll learn of me, a la John Tyler,

To be a little smarter! Yours in the cause of Peace, Quakerdom, Abolition, Slavery, and WAR, Z. TAYLOR."

CHAPMAN of the State Sentinel has hoisted the flag of Cass and BUTLER, and placed, in bold relief, at the head of the tickets, the image of a buzzard -- said estate are requested to attend to the same forthwith. The estate is probably solvent. ANDREW BOLANDER, Actur. New Albany Bulletin.

Excuse us, bubby; it was an oversight that we cast such a personal reflection on you. We meant it for HE undersigned, administrator of the estate of John Bolander, deceased, late of Marion county, will, on the 30th day of June, our National Eagle.

Some of the whig papers have charged against Cassius M. Clay that he saved his life while a prisoner in Mexico by claiming relationship with the great Mexican whig leader, Mr. Henry Clay. This is denied by Cassius, who, in a recent letter says-"I never even claimed friendship with Mr. Clay! It was he who claimed, in his Greeley letter, "relationship" with me."

R. CASE has bought of the patentee the right of Hamilton and Madison counties in this State, to this most valuable improvement in planting wheat, particularly in this chinate. Wheat put in with this drill is never thrown out by frost, and is greatly increased in quantity and quality, as will be seen by those who try it. The time is not far distant when the farmers of this State, as in all of the older States, will consider the wheat drill an indispensable labor-saving machine. The counties are for sale in any way to suit purchasers, or I will furnish machines on the most reasonable terms, by applying at my store, opposite Drake's Hotel, Indianapolis.

TO THE PUBLIC. The 'mineral lands' included in the foregoing proglamation em-brace the greater portion of Kewcean Pourt, and the southern shore of Lake Superior, in the northern peninsula of Michigan, and are rendered immensely valuable by the exhaustless mines of copper and other ores found therein. A considerable number of those mines have already been discorered in the trap ranges bordering on Lake Superior, and within a few miles of it; and from the geological character of the country and the explorations already made, it cannot be doubted that others equally, if not more, valuable will be found throughout this whole "mineral region." In some of the mines now worked, copper is found almost pure,

and in fact, most of the native copper and ores yield a greeter per centage than any other yet discovered in the world. Silver is also found in considerable quantities. All the necessary materials for the construction of fernaces, and fuel for smelting, are found in abundance in the immediate neighborhood of the mineral; and the face of the country is such, that the mines require but little, if any, artificial draipage, and are therefore worked to great advantage.
The climate in the winter, though cold, does not interrupt the operations of the miners; in fact, tha, season is considere the most favorable for their operations. The proximity of these mineral lands to the shore of Lake Superior, or which are several safe and excellent harbors, and the

water communication therefrom by the Sault Ste. Marie, Lakes Huron, Erie, &c., farnish ready means of transporting the products of these lands to the principal markets of the United It likewise appears from the reports to this office, that the agri cultural lands are of a fair quality, producing the usual ulinary regetables and grass is abundance; and no dou t, who the soft is fairly tilled, it will be found favorable for grain crops also ; and for ali these products a fair price and good market will be found
